Senate.

Washington, March 18.—Frye took his seat today.

Pendleton called up the organization resolution.

Anthony said he intended to offer another resolution and moved to postpone it indefinitely. The vote resulted in 35 ayes; 37 nays. Davis voted with the Democrats. Mahone, to the astonishment of all, voted with the Democrats at first, but afterward changed his vote amid applause and hisses. Edmunds and Vance paired. The Chair voted aye and declared the motion carried.

Anthony then offered a resolution reorganizing the committees on a Republican basis. Carried by the same vote, the Vice President throwing the deciding vote.

The Senate then went into executive session.

Items from St. Petersburg.

St. Petersburg, March 18.—The ground dug up where the mine was discovered has been refilled, the doors of the shop in which the mouth of the mine was situated sealed up and a guard placed at the premises.

It has been decided to erect a religious memento upon the spot where the Czar fell.

One of the chief organizers of the plot captured two days before the assassination confessed after the deed was accomplished and so deeply incriminated Roussakoff that he also confessed and denounced his accomplices, hence the arrests Monday and Tuesday and the discovery of the mine.

Many revolutionary proclamations have been found posted inside and outside the public buildings.

A newspaper here says the Russian authorities were advised several months ago that nihilists from Chicago, Illinois had reentered the country.

Several editors have been summoned before the press censor who requested them to refrain from utterances calculated to excite public opinion.

The Minister of Foreign Affairs has addressed the following circular to Russian representatives abroad: His Majesty, the Emperor, on ascending the throne of his ancestors assumes an inheritance. Russia has not attained her full development. The Emperor will first give his attention to the internal development of the State. The Emperor's foreign policy will be entirely pacific. Russia will remain faithful to all her friends and act in common with other governments in maintaining a general peace. Only the duty of protecting her honor or security may direct her from the work of internal development. The Emperor will endeavor to strengthen her power, advance her welfare and secure her prosperity without detriment to others. These are the principles by which the policy of the Emperor will invariably be guided. He charges you to bring these declarations to the knowledge of the governments to which you are accredited and to communicate this dispatch to the Minister of Foreign Affairs.

Wool Market.

Philadelphia, Pa., March 18.—Wool dull and falling; Oregon fine, 27-30 medium 30-32, coarse 26-28, New Mexican and Colorado fine 17-19, medium 17-18, coarse, 16-18.

Boston, March 18.—Wool market during the last few days has become completely demoralized, and prices declined, with a very unsettled market at the close. Manufacturers have continued so indifferent about the supplies and confine their purchases to their immediate wants from week to week. It has led to great pressure in Indiana, Missouri and Kentucky. There have been sales of 240,000 lbs. at various prices as to quality, and 275,000 pounds of full California at 19 and 28. Pulled wools have been selling freely at low prices, some 375,000 pounds having been taken at 30-45 for low and choice wool, and fancy lots of eastern and Maine at 45-50. In foreign wool nothing of any consequence has been done to sell, and in consequence prices eased off from two and three cents per pound on fine fleeces, and from one and two cents per pound on other kinds. Sales for the week have been 2,100,000 pounds, and include Ohio and Pennsylvania fleeces at 40-45 for xx and xxx, and from 41-42 1-2 now nominal quotations.

tions for x and xx Michigan and Wisconsin fleeces have been selling at 45 and 48, and do not at these prices. Combing and decline have been sold at 45 and 46 for fine decline, and 46 and 48 for medium and fine combing. A lot of 15,000 pounds of Kentucky combing was sold for 32. Considerable decline has taken place in recent prices, and there has been very large transactions.

Agriculture—Mahone, Blair, Plumb, Slater and George. Military—Logan, Burside, Cameron of Pa., Harrison, Sewell, Cockrell, Maxey, Grover and Hampton. Naval—Cameron of Pa., Anthony, Rollins, Miller, Mahone, McPherson, Jones of Florida, Vance and Farley. The Concession to the Chinese.

New York, March 18.—The *Sun* says: There are Western politicians and editors who take exception even to the slight concession made to China in the opium clause of the newly negotiated treaty which prohibits citizens of the United States from engaging in the opium traffic in or through the Chinese ports. Their argument is that it is an injury to the property and business of American citizens to prohibit their taking part in the opium trade and that this ought not to be conceded to in return for the limitation of Chinese immigration.

For the main point here there happens to be no foundation. The opium imported into the United States for medicinal purposes comes from India and not from Chinese ports and that imported into China is passed chiefly through the hands of British subjects. Under the protection of the English arms few or no Americans are engaged in the trade. Much of the drug that is brought to the United States for smoking is imported wholly by Chinese firms.

Wreck on a River.

Memphis, March 18.—The tow-boat John Meaus exploded her boiler last evening ninety miles up the river and sank out of sight almost immediately. She carried a crew of 26 men, four of whom, John Seals, pilot, Morris, a deckhand, and two firemen are missing, supposed to have been drowned. Charles Purcell, pilot on watch, was blown into the river and had a leg broken; Tom Cannon, a deckhand, had his skull fractured; W. R. Wood-dredge, second cook, scalded on neck and legs; Capt. McClellan, slightly bruised on the head when the boat sank. Five barges loaded with railroad iron and block tin which she was towing, floated on down the river. Capt. McClellan and the wounded men were brought here this morning by the Belle Memphis. Capt. Harris returned to the scene of the disaster with a tug to secure the barges.

The Democratic Plan.

Washington, March 19.—The Democratic Senators are determined to resist all attempts to put in new officers. Their plan of action will be decided in caucus Monday. Their opposing filibustering has been overruled, and they say the present employees are not prepared for so sudden a dismissal, as they believed the Democrats were thoroughly organized. Republicans expect a stubborn contest, and do not think that Davis will filibuster. The Democrats will probably make a stand for a few days, and the Republicans probably consider the matter next Monday.

Poor Grant.

New York, March 18.—The morning papers nearly all agree in believing that Grant will resign the presidency of the World's Fair.

The reporters who sought an interview with the General last night found him considerably annoyed by the persistence of the callers. He said he thought it strange that one could not come to New York for a few days without being overrun with interviewers. He said he would not have anything to do with the fair for the present as he was going to leave Monday next.

Suicide.

Denver, Col., March 19.—The body of John Croggins, an Irishman, was discovered hanging from timbers supporting the irrigation ditch where it crosses a gulch back of the old Grand View hotel. His feet were tied and his hat lying on one of the timbers. He had a silver watch and five or six dollars in his pocket. It is evidently a suicide, although there are very slight suspicions of foul play.

More Irish Prisoners.

Dublin, March 18.—Ten more prisoners have been lodged in Kilmainham gaol.

The Fortune Bay Outrages.

Washington, March 18.—Secretary Blaine took up the Fortune Bay outrages where Everts left off, and for a few days has been cabling almost constantly with Lord Granville. As a result, the latter proposes to leave the whole matter for decision to Secretary Blaine and Sir Edward Thornton. If they disagree, they are to name a referee, whose decision shall be accepted by the Governments as final. Our Government is now considering this proposition.

Discredited.

Chicago, March 18.—Gen. Sherman and officers of his staff thoroughly discredited the story from New Mexico that Apache Indians attacked a wagon train at Puerto de Chocolate and massacred the people. No such intelligence has been received at military headquarters, where it would naturally be known first, since the Indians made their raids from a point near Ft. Cummings, from which post any hostile movement would be instantly telegraphed to Chicago.

Confirmations.

Washington, March 18.—The Senate to-day confirmed John W. Powell, of Illinois, Director of the U. S. Geological Survey vice Clarence Kink, resigned. Hiram Barber, Jr., of Illinois, Receiver of Public Monies at Mitchell, Dakota. Geo. W. Jones, of Ohio, Assistant Paymaster in army.

To Suspend Cattle Importations.

London, March 18.—The Government will oppose Chaplin's motion in the Commons declaring that slaughtering of cattle does not prevent the introduction of contagious diseases and declaring it necessary for the practical suspension of the importation of live cattle from all countries except Spain.

Relieving Pork.

Washington, March 18.—Minister Noyes cables that the French government has agreed that all pork loaded upon ships prior to the passage of the French decree concerning pork import from the United States, shall be admitted to France, subject to inspection, and with as little delay as such examination permits.

Stealing Registers.

Chicago, March 18.—A registered letter pouch was stolen from the mail car which arrived this morning over the Cincinnati, Lafayette & Chicago railroad. Officials of the road and of the Government are very reticent about the matter, refusing to give any particulars.

Evacuating Candahar.

London, March 18.—It was intended to complete the evacuation of Candahar by April 15th, but the Amer has requested a postponement of the evacuation until he has arranged for taking over the city and provinces.

Dangerous Intrigue.

Dublin, March 18.—The *Freeman's Journal* regards the proposal for an appointment of a Papal Nuncio at the Court of St. James, as one of the most dangerous intrigues ever attempted by England against the nation and faith of Catholicism.

Leadville Criminal Court.

Denver, March 18.—In the Supreme Court, to-day, arguments of the opposing counsel in the case of the Judgeship of the Leadville Criminal Court were heard. The Court reserved its decision and adjourned until next Friday.

The Leadville Criminal Judgeship.

Denver, Col., March 18.—The case of the Leadville criminal court judgeship came up in the supreme court to-day; the arguments on the Rucker side were heard this forenoon, and court took a recess until 2 p. m.

Guilty.

Cincinnati, March 18.—The jury this forenoon, in the second hearing of the case, found Harry Hulse guilty of violating the person of a little girl about a year ago. His sentence will be life imprisonment.

Extra Session.

Washington, March 18.—The Cabinet to-day discussed the question of calling an extra session of Congress. It is thought an extra session will be called to meet between the 1st and 15th of May.

Gould Inactive.

New York, March 18.—The *Graphic* says that Gould is doing very little in the stock market at present, as he proposes to go to Florida for a brief resting spell.

High Water.

Savannah, Ga., March 18.—The Savannah river is higher than since '55. It rose 24 feet in twelve hours. Portions of Augusta are flooded.

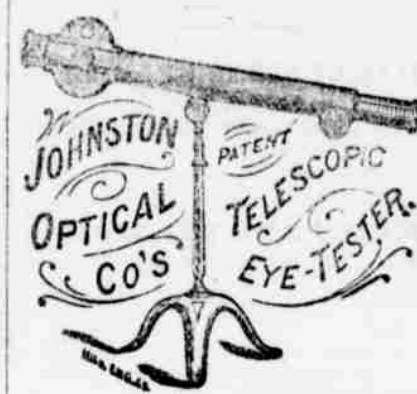

Hung Himself.

Chicago, March 18.—Theodore Wolf hung himself this morning in the attic of his home, No. 363 Division street. Aged, 36 years.

Princess Louise.

London, March 18.—Princess Louise Caroline of Hesse Cassel is dead.
